

Examples of tasks for student staff or lab technologists/technical staff at the department

Non-qualifying tasks

= can be performed by student staff and lab technologists/technical staff

Qualifying tasks

= can **only** be performed by college educated lab technologists or technical staff

Note: Students may of course (as part of their education on bachelor- or master level) work with certain qualifying tasks, after being thoroughly instructed by a lab technologist/technical staff.

When using student helpers: Include financial support for a lab technologist/technical staff:
Instruction/start-up: 1000-3000 kr. per student helper
Supervision: 1000-4000 kr. per student helper
Priceranges are estimates, depending on the project. 1 hour = 353,50 kr. (internal AU)

*) Only when following the department safety guidelines for working alone and/or with risky processes
