

# AGiR Lectures\*

## Radiogenic Isotopes, Geochronology and their Applications

We cordially invite all members of the Department of Geoscience (AU) to two lectures on the fundamentals and applications of radiogenic isotopes given by AUFF Distinguished Visiting Professor, Jeffrey Vervoort. Lectures will be 90 minutes long with time for questions and discussion.

**Lecturer: AUFF Distinguished Visiting Professor, Jeffrey Vervoort**

Professor, Isotope Geochemistry  
School of the Environment  
Washington State University  
Pullman, WA 99164

### Program

**31 Oct. (Tuesday); 10:10 – 12:00 (rm 1673-118)**

Lecture 1: Fundamentals of radiogenic isotope geochemistry & geochronology

**7 Nov. (Tuesday) 10:10 – 12:00 (rm 1673-118)**

Lecture 2: Applications of isotope tracers of Earth processes

\*This lecture series is sponsored by the Aarhus Geochemistry and Isotope Research (AGiR) Platform.
